Sorry for sending email 1 of 2 twice; b'berry thumbs are getting tired.

These are proprietary studies and are not to be released to the public; for agency use only. This is the background tox to support the MSDS information. Email two of two.

Thanks. Lora

Larry,

Here's the data. I may have something else.... I need to dig a bit more. The "AR-m455N" PDF is a memo from out director at the time explaining the issue with the rats. Please send me a reply to verify receipt?
